**RE: SEVERE WEATHER CAUSES FLOOD DAMAGE
AND TREE FALL**

Due to recent severe weather with heavy rain and damaging winds there has been a significant amount of tree fall throughout the parks impacting some roads, trails and camping areas.

Several parks still remain **CLOSED** following fires and floods earlier in the year. These parks include:

Deua National Park	Wadbilliga National Park
Monga National Park	Badja Swamps Nature Reserve
Biamanga National Park	Murrah Flora Reserve

Substantial work has already been done repairing many of the roads, trails, bridges and river crossings in these parks. The recent severe weather event has resulted in further flooding, tree fall and damage to road surfaces. These parks remain closed until further notice.

Closer to the coast, storm-strength winds and waves have caused significant damage to the coastline and low-lying areas adjacent to coastal lakes and lagoons may flood. There may be temporary closures whilst works are necessary to protect assets and infrastructure. Closures will be signposted on-site; please follow instructions on any signs you see.

This information will also be posted on the website at www.nationalparks.nsw.gov.au Here you'll find the most recent updates, safety alerts, park closures, access restrictions and fire bans. These updates only stay online for the time they are relevant.
