### **President's report: (Andrew Lockley)**

#### **Welcome:**

Welcome all and I hope you have had a great Easter and an opportunity to catch up with those close to you.

#### **Club Review**

The committee had hoped to be in a position to present the key findings and ideas arising from the recent survey. But.....

While we have had fruitful discussions on the findings we have yet to conclude deliberations on the key ideas going forward.

I look forward to completing these discussions at our meeting next week so we can present to you next month. Regardless, whatever we present we will be inviting your ideas and feedback.

As a teaser, one area of feedback from members was the need for more guest speaker sessions or opportunities for offsite meetings. So put your thinking caps on and please let Garry or myself know any ideas you may have to make these a reality.

#### **Website Issues**

Matt will give us an update on the Website and the recent issues with members data visibility. I want to re-iterate our website is not run by a 24/7 IT department, and we rely on members to notify us of any problems if and when they arise.

I want to reinforce my appreciation of Matt Bolton for getting on top of the issue as quickly as possible.

### **Trips**

It's good to see the recent steady trickle of trips coming through and I look forward to hearing about how they progress. The key being that we still need more trips as every new trip advertised seems to fill very quickly. So put your thinking hats on and let's get out there.

Matt further confirmed that the problem was caused by an error in that particular module, and that he is confident that this was not the result of the Website being hacked.

Matt was also advised that there was a problem with the Log-In / Log-Out module this morning. This was resolved by Sarah Oates (Endure Web Studios) within an hour of her being notified.
